

Pedestrian Safety

Teaching Kids How to Walk Safely

- Teach kids at an early age to look left, right and left again before crossing the street. Then remind them to continue looking around until safely across.
- It's always best to walk on sidewalks or paths and cross at street corners, using traffic signals and crosswalks. If there are no sidewalks, walk facing traffic as far to the left as possible.
- Teach kids to make eye contact with drivers before crossing the street.
- Children under 10 need to cross the street with an adult. Every child is different, but developmentally, most kids are unable to judge the speed and distance of oncoming cars until age 10.
- Encourage kids to be especially alert for cars that are turning or backing up.
- Teach kids not to run or dart out into the street or cross between parked cars.
- If kids are walking when it's dark out, teach them to be especially alert and make sure they are visible to drivers. Have them wear light- or brightly-colored clothing and reflective gear.
- Teach children not to be a distracted pedestrian. Heads up, phones down.

School Bus Safety Tips

Everything you need to know to keep your kids safe in and around the school bus.

Taking the bus for the first time is a big step for your child. Help your kids get a gold star in bus safety by following these tips.

- When possible, walk with your kids to the bus stop and wait with them until it arrives. Tell kids to stand at least three giant steps back from the curb as the bus approaches and board the bus one at a time.
- Teach kids to wait for the bus to come to a complete stop before getting off and never to walk behind the bus.
- If your child needs to cross the street after exiting the bus, he or she should take five giant steps in front of the bus, make eye contact with the bus driver and cross when the driver indicates it's safe. Teach kids to look left, right and left again before crossing the street.
- Instruct younger kids to use handrails when boarding or exiting the bus. Be careful of straps or drawstrings that could get caught in the door. If your children drop something, they should tell the bus driver and make sure the bus driver is able to see them before they pick it up.
- Drivers should always follow the speed limit and slow down in school zones and near bus stops. Remember to stay alert and look for kids who may be trying to get to or from the school bus.
- Slow down and stop if you're driving near a school bus that is flashing yellow or red lights. This means the bus is either preparing to stop (yellow) or already stopped (red), and children are getting on or off.

School buses are the safest mode of motorized transportation for getting children to and from school, but injuries can occur if kids are not careful and aware when getting on and off the bus.
